Subject: Opposition to MOU

To: Elizabeth Hiner, R.Ph.

We wish to object to the MOU that would restrict the shipment of prescriptions across state lines by compounding pharmacies.

One of us has long been the beneficiary of compounded hormones provided by a compounding pharmacy in Madison, Wisconsin. Unable to tolerate other formulations, I have depended on compounded HRT preparations for relief from perimenopausal symptoms and cycle-related fibromyalgia syndrome symptoms.

From a physician and spouse's standpoint, the restriction of availability of the products of compounding pharmacies is an unacceptable and wholly unnecessary restraint on access to adequate health care.

Please resist the large pharmaceutical companies' profit-driven maneuvers and prevent the profound medical injustice that the MOU would cause.

Thank you.

Julie Hayward
